1. Executive Summary

Daastaan-e-Pakistan is a nationwide digital tourism marketplace that connects travellers — international visitors, overseas Pakistanis, and domestic explorers — with verified local guides and experience providers across Pakistan. The platform's purpose is to help the world discover Pakistan through its people, its stories, and its lived cultural heritage.

The long-term vision is a connected tourism ecosystem spanning Punjab, Khyber Pakhtunkhwa, Sindh, Balochistan, and Gilgit-Baltistan. The **v1 launch (Lahore only, ~mid-January 2027)** proves the model with curated, admin-onboarded guides offering multiple package categories.

A **flagship "Women-First" package tier** — featuring verified female guides, hotel pickup, safety features (SOS, live trip-tracking), and concierge extras (makeover, shopping guidance, gifting) — serves solo women travellers as a signature product within the broader catalog, exploiting an uncontested market gap (see §6).

The platform comprises three interconnected products:

1. **Customer Web App** — SEO-optimised, discoverable, mobile-responsive
2. **Admin Panel** — manages guides, packages, bookings, payments, content
3. **Flutter Mobile App** — customer + guide app with safety features

All three consume a single API-first backend, ensuring parity and simplifying scale.

Business ambition: Become the trusted starting point for discovering Pakistan — the digital gateway international, diaspora, and domestic travellers use first when planning a Pakistani journey.

2. Business Context & Opportunity

2.1 The Problem

Pakistan's international image is often shaped by perception rather than lived experience. Travellers who want to visit encounter a fragmented and informal tourism landscape:

- **Discovery gap:** No single trusted destination for finding curated local experiences across cities. Google searches surface blog posts, Instagram accounts, and government directories — not bookable products.
- **Trust deficit:** 80% of Pakistani tour operators coordinate via WhatsApp and collect deposits via bank-transfer screenshots. For an overseas visitor, this is a UX nightmare and a trust-breaker.
- **Local-knowledge silo:** Guides, families, and cultural experts with deep regional knowledge lack the digital visibility to connect with the travellers who would value them most.
- **Fragmented experiences:** Heritage, cuisine, crafts, mountains, cities, faith, families — each a potential journey, each scattered across unconnected offerings.
- **Safety concerns (women segment):** Solo female travellers face a trust deficit no competitor fully solves — no verified female-guide service with digital booking, no in-app safety features, no concierge culture-matched to visiting women's needs.

2.2 The Opportunity

- Pakistan has had visa-on-arrival for 175+ countries since 2019. Inbound tourism is a national priority with growing policy and media support.
- Overseas Pakistanis — a global diaspora of 9+ million — represent a repeat-visitor segment with high trust needs and strong word-of-mouth potential.
- Domestic solo and female travel is a rapidly growing but underserved segment.
- Northern Pakistan has become a viral travel destination, consistently featured in global travel media.
- No competitor combines (a) nationwide ambition, (b) real card checkout, (c) curated verified guides, (d) women-first safety vertical, (e) mobile app — see Competitor Analysis.

2.3 The Solution

A nationwide marketplace that:

- Lists curated local experiences by city, category, and tier

- Enables travellers to discover, compare, and book experiences from verified guides
- Processes secure, cashless payments in multiple currencies
- Offers a **Women-First tier** with verified female guides and signature safety + concierge features
- Supports local guides by making their expertise commercially discoverable
- Provides tools (admin + mobile) that make tourism safer, more organised, and more inclusive

Launch v1 is Lahore-only; subsequent phases open Islamabad, Northern Pakistan, Karachi, and beyond.

---

3. Vision, Mission & Values

Approved copy from stakeholder. Full narrative in brand/brand-content.md.

3.1 Vision

> *To make Pakistan a destination that the world can discover, understand, and appreciate through authentic travel experiences and meaningful connections with its people.*
>
> *We envision a future in which travellers can explore Pakistan with greater confidence, local guides can showcase their knowledge and heritage, and communities across the country can benefit from responsible tourism.*

3.2 Mission

> *Our mission is to develop a central digital platform that connects travellers with local guides and experience providers across Pakistan.*
>
> *We aim to make it easier for visitors to discover and compare local experiences, explore destinations through people who know them well, and engage with Pakistan's history, culture, food, traditions, and natural beauty.*
>
> *At the same time, we want to create opportunities for local people to present their knowledge, develop tourism packages, reach a wider audience, and build sustainable livelihoods through tourism.*

© Flyxosoft 2026

3.3 Core Values

1. **Authenticity** — Real places, real people, real stories. Not tourist theatre.
2. **Trust Through Verification** — Every guide vetted. Every review real.
3. **Responsible Tourism** — Benefits flow to local communities, not just intermediaries.
4. **Cultural Respect** — Represent regions and traditions with care and accuracy.
5. **Safety & Inclusion** — Every traveller — especially solo women — feels protected and welcomed.
6. **Digital-First Experience** — No WhatsApp screenshots. No bank-transfer PDFs. One clean platform.

3.4 Goals

- **Short-term (0–6 months post-launch):** Lahore live with 15+ guides, 50+ packages across tiers, 100+ completed bookings, 4.7+ average rating.
- **Medium-term (6–18 months):** Expansion to Islamabad + Gilgit-Baltistan. 50+ guides. 1,000+ completed bookings. Opening of self-serve guide portal (v2).
- **Long-term (18+ months):** Category leader for Pakistani tourism. Pan-provincial presence. B2B partnerships (hotels, airlines, embassies). Regional expansion in evaluation.

4. Brand & Positioning

Brand name	**Daastaan-e-Pakistan**
Short handle	DeP (internal)
Tagline	*Discover Pakistan. Live Its Stories.*
Meaning	*Daastaan* (Urdu, داستان) — tale, story, narrative. The brand positions Pakistan as a nation of untold stories, waiting to be heard from the people who live them.

4.1 Positioning Statement

> *For travellers — international visitors, overseas Pakistanis, and domestic explorers — who want to experience Pakistan beyond the headlines,* ***Daastaan-e-Pakistan*** *is a trusted digital marketplace that connects them with verified local guides, so that they can discover authentic cultural, heritage, culinary, and natural experiences across the country. Unlike WhatsApp-based tour agencies or generic OTAs, Daastaan-e-Pakistan offers curated listings, real online checkout, and a dedicated* ***Women-First tier*** *with safety and concierge features purpose-built for solo female travellers.*

4.2 Supporting Taglines (marketing)

- PK Come as a traveller, leave with a story.
- 🌿 Discover Pakistan through its people & traditions.
- 🤝 Real places. Warm welcomes. Untold stories.

5. Business Objectives

ID	Objective	Success Measure (12 months post-launch)
BO-01	Establish Daastaan-e-Pakistan as the primary digital destination for discovering Pakistan tourism	Top-3 Google ranking for "Pakistan tours", "Lahore tours online", "safe Pakistan guide"
BO-02	Deliver seamless, cashless booking for international + diaspora + domestic customers	≥ 90% of bookings complete without support intervention
BO-03	Build a trusted, verified pool of local guides across tiers	30+ verified guides onboarded; "verified" badge visible on all public profiles
BO-04	Achieve product-market fit through customer satisfaction and repeat usage	Avg review rating ≥ 4.7 / 5; NPS ≥ 60; repeat rate ≥ 20%
BO-05	Reach financial sustainability	Monthly bookings ≥ 100 by month 12; break-even on operating costs by month 18
BO-06	Build brand advocacy and story-based acquisition	≥ 30% of bookings from referral / word-of-mouth / organic by month 12
BO-07	Prove the Women-First flagship tier as a strong vertical	≥ 25% of total bookings from the Women-First tier; corresponding ≥ 4.8 rating

6. Market Analysis & Competitor Landscape

Full analysis in research/competitor-analysis.md. Summary below.

6.1 Competitive Positioning Matrix

Player	Nationwide	Online Checkout	Mobile App	Curated Guides	Women-First Tier	Multi-Category
The Mad Hatters	Partial	❌	❌	✅	✅	❌ (group tours)
Trips.pk	✅	✅	✅	❌	❌	✅
FindMyAdventure	Partial	Partial	iOS only	❌	❌	Partial
PakVoyager	✅	✅	❌	❌	❌	✅
TripMaker.pk	Partial	❌	❌	❌	❌	Partial
PTDC (gov)	✅	Partial	❌	❌	❌	❌
She Travels PK / Desii Traveller	❌ (city-level)	❌	❌	✅	✅	❌
Daastaan-e-Pakistan	✅ (long-term)	✅	✅	✅	✅	✅

6.2 Strategic Differentiators

1. **Verified-guide marketplace with real checkout** — the entire category still runs on WhatsApp + bank transfers.
2. **Women-First tier with safety + concierge** — uncontested in Pakistani market.
3. **Mobile app with safety features (SOS, live tracking)** — only Trips.pk has an app, and it is a generic OTA.
4. **Multi-category structure** (Heritage, Food, Nature, Women-First, Family) — no competitor segments offerings this way.
5. **Storytelling-led brand** — differentiates on narrative, not just price.
6. **Diaspora + domestic + international focus** — nobody targets all three deliberately.

6.3 Positioning Strategy (Year 1)

- Attack the **digital + curation + safety** angle. Position as the organised, trusted alternative to WhatsApp-based booking.
- The Mad Hatters remains the "premium multi-day women-only group" incumbent for Year 1; we attack with (a) city-level day-tour products, (b) multi-category appeal beyond

women-only, (c) real booking UX.

- Trips.pk is a mass-market OTA — we differentiate on curation, verification, and story-driven experiences.

7. Target Users & Personas

7.1 Primary Persona — "Sarah, the Curious Overseas Traveller"

Attribute	Detail
Age	28–45
Location	US, UK, Canada, UAE, Australia
Motivation	Visiting Pakistan for the first time — bucket-list, heritage curiosity, culture, friends/family visit. Wants more than what news tells her.
Discovery	Google: *"things to do in Lahore"*, *"authentic Pakistan tour"*, *"Pakistan guide"*, *"is Pakistan safe"*
Values	Authenticity, cultural immersion, safety, verified reviews, English-speaking guide
Likely Tier	Cultural Heritage, Food Trail; women among them often pick Women-First

7.2 Primary Persona — "Imran, the Returning Overseas Pakistani"

Attribute	Detail
Age	30–55
Location	US, UK, Canada, Middle East
Motivation	Visiting family or returning for the first time in years. Wants to reconnect, show family, or explore regions he/she never saw as a child.
Discovery	Facebook ads, Google, word-of-mouth within diaspora communities
Values	Family-friendly, trustworthy, local-flavour, convenient
Likely Tier	Cultural Heritage, Family, Food Trail; multi-generational trips

7.3 Secondary Persona — "Zainab, the Domestic Solo Explorer"

Attribute	Detail
Age	22–35
Location	Karachi, Islamabad, Peshawar, other PK cities
Motivation	Wants to explore Lahore without a male companion; family will only permit it if she's with a trusted service.
Discovery	Instagram, Facebook groups, word of mouth, TikTok
Values	Trust, local payment (PKR), family reassurance, English or Urdu guide
Likely Tier	Women-First (highest intent)

7.4 Secondary Persona — "Fatima, the Guide"

Attribute	Detail
Age	25–55
Location	Lahore (v1); nationwide (v2)
Occupation	Freelance guide, educator, homemaker with tourism passion, heritage expert
Motivation	Monetise local knowledge; serve travellers meaningfully.
Discovery	Direct outreach by DeP team (v1); self-signup portal (v2)
Needs	Reliable payouts, booking notifications, admin support, clear pricing

7.5 Platform Admin Persona — "Ops Team"

Aiman, Umaimah, Ahmad, and future ops/support team. Uses admin panel to manage guides, packages, bookings, payments, reviews, content, and communications.

8. Business Scope

8.1 In Scope (v1 — Lahore Launch, ~mid-Jan 2027)

Customer Web App:

- Landing page: brand story, differentiators, category tabs, featured packages, reviews, newsletter, blog preview
- Multi-category catalog with filters (city, tier/category, duration, price, guide language)
- Package detail pages
- Auth (email + Google + Facebook social login)
- Booking flow: slot picker → guide auto-assign or customer picks → optional add-ons → checkout
- Payments: Stripe (international USD/GBP) + Safepay (local PKR; wraps JazzCash/Easypaisa/cards)
- Multi-currency price display with daily FX
- Promo codes at checkout
- Booking dashboard (upcoming, past, receipts)
- Review submission (with photos)
- Content pages: About, Our Story, Vision, Mission, Founder Message, FAQ, Safety Guide, Travel Guide, Blog
- Newsletter capture
- Referral system (basic — unique link, discount both sides)
- WhatsApp click-to-chat with guide post-booking
- Multi-tier catalog display (Women-First / Cultural Heritage / Food Trail / Nature / Family — final list TBD per Aiman)

Admin Panel:

- Auth + RBAC (super-admin, ops-admin, content-manager)
- Guide CRUD + verification workflow (CNIC upload, police clearance status, knowledge assessment)
- Package CRUD + Excel/Doc importer + multi-tier assignment
- Booking management (view, reassign guide, refund, mark complete)
- Payment reconciliation & reporting
- Review moderation (incl. photo screening)
- Content CMS (blog, travel guide, FAQ, static pages)
- Promo code CRUD + usage analytics
- Newsletter list management

© Flyxosoft 2026

- Guide payout report
- Basic analytics dashboard (bookings, revenue, top packages, tier mix)

API:

- Versioned REST endpoints (`/v1`)
- OpenAPI/Swagger auto-generated docs for Flutter dev
- JWT + refresh token auth
- Rate limiting, CORS, input validation
- Payment webhooks (Stripe, Safepay)
- Email via Resend
- SMS via Twilio
- Push notifications via FCM

Women-First Tier Features (v1, scoped to this tier only):

- Hotel pickup logistics on booking record
- Concierge add-ons at checkout (makeover, shopping guidance, gifting)
- Emergency contact field on user profile
- SOS button (web + mobile) — triggers SMS + email + admin alert
- Live location sharing during active trip (mobile primary surface)
- Guide check-ins (start trip / pickup done / trip complete) — mobile primary

DevOps & Infrastructure:

- GitHub repo with branch protection
- CI/CD via GitHub Actions
- Preview deployments per PR
- Vercel (web + admin)
- Railway (API) — path to AWS ECS at scale
- Supabase (Postgres + storage)
- Cloudflare (DNS + CDN) — in front of GoDaddy domain
- Sentry (errors), BetterStack (uptime)
- Staging + production environments

8.2 Out of Scope (v1) — Deferred to v2+

- **Cities beyond Lahore** — Islamabad, Hunza, Skardu, Karachi, Multan, Peshawar, Quetta etc. (v2+)
- Multi-day packages (data model supports; v1 catalog is 1-day only)

© Flyxosoft 2026

- Group bookings (v1 single-person; `party_size` field in data model, hidden in UI)
- Guide self-serve portal (admin-onboarded only in v1)
- In-app chat (v1 uses WhatsApp click-to-chat)
- Universal safety features (v1 scoped to Women-First tier; v2 opens SOS + emergency contact to all tiers)
- Loyalty / points program
- Corporate / B2B bookings
- Multi-language UI (English v1; Urdu v2)
- Advanced search engine (Meilisearch/Algolia) — v1 uses Postgres full-text
- Pre-booking video calls with guides
- Marketplace guide-set pricing (v1: admin sets prices)
- Guide-owned content (blog posts, stories under guide name)

8.3 Explicitly Excluded (not planned)

- Flight bookings
- Hotel bookings
- Visa processing
- Government partnership integrations (PTDC)
- Male-only tour products (we're women-friendly across tiers)

9. Package Tier Framework

The catalog is organised into **tiers / categories**. A package belongs to exactly one tier. Tier drives:

- Which features appear at checkout (concierge add-ons for Women-First)
- Guide filter at assignment (women-only guides for Women-First tier)
- Marketing surface placement
- Pricing bands

9.1 v1 Tier Candidates (final list awaiting Aiman's activity catalog)

Tier	Description	Signature Features
Women-First Private	Solo woman + verified female guide + hotel pickup + optional concierge	SOS, live tracking, makeover/shopping/gifting add-ons
Cultural Heritage	Guided deep-dives into Lahore's historical landmarks (Walled City, Fort, Shalimar, Badshahi, museums)	Expert historian guide, optional lunch
Food Trail	Lahore food scene — street food, old city, high-end	Food-expert guide, 4–6 tasting stops
Family / Group-Friendly	Day-trip suitable for multi-generational families	Driver + guide, child-friendly pacing
Nature & Outdoor	Day outings — Jallo Park, Changa Manga, Khewra (day return)	Outdoor-friendly guide, transport

Final tier list locked once Aiman provides the activity catalog.

9.2 Tier Features Matrix

Feature	Women-First	Cultural	Food	Family	Nature
Female guide required	✅	—	—	—	—
Hotel pickup default	✅	Optional	Optional	✅	✅
SOS + live tracking	✅	v2	v2	v2	v2
Concierge add-ons at checkout	✅	—	—	—	—
English-speaking guide	✅	✅	✅	✅	✅

10. Business Requirements

Numbered `BR-###`. Each maps to one or more FRD functional requirements.

10.1 Discovery & Marketing

ID	Requirement	Priority
BR-001	Platform must be SEO-discoverable for "Pakistan tours", "Lahore guide", "safe Pakistan female tour"	Must
BR-002	Landing page must communicate the storytelling / authenticity / verified-guide positioning in < 5 seconds	Must
BR-003	Visitors must be able to subscribe to newsletter without an account	Must
BR-004	Platform must prominently display verified customer reviews	Must
BR-005	Platform must publish blog + travel guide content for SEO	Must
BR-006	Landing page must surface package tiers (categories) as navigable sections	Must

© Flyxosoft 2026

10.2 Customer Journey

ID	Requirement	Priority
BR-007	Customers must be able to browse packages by city, tier, and filters without an account	Must
BR-008	Each package detail page must show: title, images, included/excluded services, duration, price, add-ons, example guide profile, reviews	Must
BR-009	Customers must create an account or log in to complete a booking	Must
BR-010	Customers must support email + Google + Facebook social login	Must
BR-011	Customers must be able to select a date + available timeslot	Must
BR-012	Customers must be able to accept auto-assigned guide OR pick from available guides for the slot	Must
BR-013	For Women-First tier only: customers must see concierge add-ons (makeover, shopping, gifting) at checkout	Must
BR-014	Customers must be able to apply promo codes at checkout	Must
BR-015	Customers must be able to pay via card in USD, GBP, or PKR	Must
BR-016	Customers must be able to pay via local methods (JazzCash, Easypaisa) via Safepay	Must
BR-017	Customers must receive immediate email confirmation with itinerary + guide details	Must
BR-018	Customers must have a dashboard listing upcoming + past bookings and receipts	Must
BR-019	Customers must be able to WhatsApp their assigned guide after booking (click-to-chat; no number exposure pre-booking)	Must
BR-020	Customers must be able to leave a 1–5 rating + written review + up to 5 photos post-trip	Must
BR-021	Customers must have a referral link; both referrer and referred get discount on next booking	Should

© Flyxosoft 2026

10.3 Guide Management

ID	Requirement	Priority
BR-022	Only verified guides appear in the catalog	Must
BR-023	Guide onboarding must capture: full name, CNIC image, photo, bio, languages, cities, specialities, availability, flat-fee per booking, WhatsApp number	Must
BR-024	Verification workflow: pending → documents reviewed → police clearance → knowledge check → verified / rejected	Must
BR-025	Each guide must have a public profile displayed in booking confirmation + customer booking dashboard	Must
BR-026	Guides must indicate availability per day (and per hour where applicable)	Must
BR-027	Guides must receive email notification for every new booking assigned	Must
BR-028	Guides receive flat fee per completed booking; payouts tracked for weekly or monthly disbursement	Must
BR-029	Guide public profile must display verified badge, languages, specialities, rating, reviews	Must
BR-030	For Women-First tier assignment: only female-tagged guides are eligible	Must

© Flyxosoft 2026

10.4 Safety (Women-First Tier v1)

ID	Requirement	Priority
BR-031	Customers must be able to set an emergency contact on their profile	Must
BR-032	Women-First tier bookings must expose a mobile SOS button during active trips	Must
BR-033	SOS action must notify emergency contact (SMS + email) + admin dashboard immediately	Must
BR-034	Guides must perform in-app check-ins: trip start, customer pickup, trip complete	Must
BR-035	Live customer location must be shareable with emergency contact during active trips	Must
BR-036	Admin must have real-time view of active Women-First tier trips with alert flagging	Must

© Flyxosoft 2026

10.5 Admin & Operations

ID	Requirement	Priority
BR-037	Admin must CRUD guides, packages, categories/tiers, and content pages	Must
BR-038	Admin must import packages in bulk via Excel or Doc upload with preview before commit	Should
BR-039	Admin must be able to override guide assignment for any booking	Must
BR-040	Admin must be able to issue refunds (manual process in v1)	Must
BR-041	Admin must moderate reviews (approve/reject/hide) before publication	Must
BR-042	Admin must create and manage promo codes	Must
BR-043	Admin must view payout report (bookings completed × flat fee per guide)	Must
BR-044	Admin must have a basic analytics dashboard (bookings, revenue, top packages, tier mix)	Should
BR-045	Admin must manage newsletter subscriber list and export	Should

10.6 Cross-Cutting

ID	Requirement	Priority
BR-046	Flutter mobile app must achieve feature parity for browsing, booking, and safety features (Women-First tier)	Must
BR-047	Platform must comply with Pakistani Data Protection Act and align with GDPR best practice	Must
BR-048	All financial transactions must be logged and auditable	Must
BR-049	Mobile app must support push notifications for booking updates	Must
BR-050	Data model must support future expansion: multi-city, multi-day packages, group bookings, self-serve guides	Must

© Flyxosoft 2026

11. Non-Functional Requirements

11.1 Performance

ID	Requirement	Target
NFR-001	Landing page LCP	≤ 2.5s on 4G
NFR-002	API response (p95)	≤ 300ms reads, ≤ 800ms writes
NFR-003	Lighthouse performance	≥ 90
NFR-004	Lighthouse SEO	≥ 95

11.2 Scalability

ID	Requirement	Target
NFR-005	Concurrent users	500 MVP → 10,000+ with horizontal scaling
NFR-006	Catalog size	100+ packages, 100+ guides v1 → 10,000+
NFR-007	Stateless API with load balancer	Required
NFR-008	Managed DB vertical scale ceiling	4 vCPU / 16 GB before sharding evaluation

11.3 Availability

ID	Requirement	Target
NFR-009	Uptime SLO	99.5%
NFR-010	Payment gateway fallback	Stripe fail → Safepay offered; dual fail → WhatsApp fallback
NFR-011	DB backup	Daily automated + PITR

© Flyxosoft 2026

11.4 Security

ID	Requirement	Target
NFR-012	HTTPS everywhere, auto-renewed SSL	All subdomains
NFR-013	Password storage	bcrypt cost ≥ 12
NFR-014	OWASP Top 10 mitigations	SQL inj, XSS, CSRF, SSRF, etc.
NFR-015	Rate limiting	100 req/min public, 500 authenticated
NFR-016	PII encryption at rest	CNIC images, emergency contacts
NFR-017	Payment card data	Tokenised at gateway only; never stored
NFR-018	Admin panel 2FA	Must for v2; Should for v1

11.5 Usability

ID	Requirement	Target
NFR-019	Mobile responsive	320px – 2560px
NFR-020	WCAG 2.1 AA	Contrast, keyboard nav, alt text
NFR-021	Language	English v1; Urdu v2
NFR-022	Time zones	Display local, store UTC

11.6 Compatibility

ID	Requirement	Target
NFR-023	Browsers	Chrome, Safari, Firefox, Edge — latest 2
NFR-024	Mobile OS	iOS 15+, Android 9+

© Flyxosoft 2026

11.7 Maintainability

ID	Requirement	Target
NFR-025	Business-logic coverage	≥ 60%
NFR-026	CI/CD	Lint + type-check + tests on every PR; auto-deploy on merge
NFR-027	Env parity	dev, staging, prod identical infra
NFR-028	Error observability	Sentry integrated across web, admin, API

12. Success Metrics & KPIs

12.1 North Star Metric

Completed Bookings per Month

12.2 Supporting Metrics

Category	Metric	Target Month 6	Target Month 12
Acquisition	Monthly unique visitors	5,000	20,000
Acquisition	Signups / month	200	1,000
Activation	Signup → first booking conversion	15%	25%
Revenue	Completed bookings / month	30	100
Revenue	Average order value (AOV)	PKR 22,000	PKR 28,000
Revenue	Monthly gross revenue	PKR 660,000	PKR 2,800,000
Retention	Repeat booking rate	10%	20%
Trust	Average review rating	4.5+	4.7+
Trust	Reviews per booking	60%	75%
Growth	Referral-driven bookings	15%	30%
Operations	Guide utilization rate	30%	50%
Operations	Booking → tour completion rate	90%	95%
Tier health	Women-First tier share of bookings	≥ 25%	≥ 25%

© Flyxosoft 2026

13. Stakeholders

13.1 Client Side — Daastaan-e-Pakistan

Stakeholder	Role	Responsibility
Aiman Mokham	Founder & Business Lead	Vision, brand, guide roster, package curation, partnerships, content, sign-off on deliverables
Umaimah	Reviewer & Contributor	UX review, requirements refinement, value-add features
Waqar Ullah	Business Developer	Partnership outreach, growth channels, go-to-market execution, market feedback loop
Guides (v1 cohort)	Service Providers	Deliver experiences; maintain quality + safety standards
End Customers	Platform Users	Book, experience, review, refer

13.2 Vendor Side — Flyxosoft

Stakeholder	Role	Responsibility
Ahmad Fawad	Project Manager / Lead Developer	Vendor-side product ownership, web + admin + API development, delivery, client communication
Flutter Developer (TBD)	Mobile Developer	iOS + Android application against OpenAPI contract (engaged under Flyxosoft)
Flyxosoft QA / DevOps (as required)	Support Functions	Testing, deployment, environment management

13.3 Engagement Model

- **Delivery Model:** Fixed-scope, phased delivery (3 phases × 4 weeks)
- **Communication Cadence:** Weekly check-ins between Flyxosoft PM and Daastaan-e-Pakistan Founder
- **Review Gates:** End of each phase — client sign-off required to proceed
- **Change Management:** Scope changes handled via written change-request addendum to this BRD

© Flyxosoft 2026

14. Assumptions

- Aiman delivers activity list, guide roster, and content by Week 2 of build.
- Guides are sourced via Aiman's network for v1; no public recruitment needed.
- Payment gateway approvals (Stripe, Safepay) complete within 2–3 weeks of application.
- Hosting + infra costs stay under USD 150/mo at MVP scale.
- Flutter developer is engaged by Week 5.
- Growth is organic (SEO + content + referral) until post-launch; no paid-ads budget assumed pre-launch.
- Legal entity for payments processing (Pakistani company or similar) is in place or being established in parallel.

15. Constraints

- **Time:** 12-week build, solo developer on web + admin + API.
- **Budget:** Bootstrap; low-tier managed services.
- **Team:** No dedicated designer, QA, DevOps, or marketing at launch.
- **Legal:** Pakistan Data Protection Act compliance; PCI-DSS via tokenising gateways.
- **Language:** English v1; Urdu deferred.
- **Geography:** Lahore v1.

16. Risks & Mitigation

ID	Risk	Likelihood	Impact	Mitigation
R-01	Insufficient guides onboarded by launch	Medium	High	Begin recruitment Week 1; 10-guide floor across tiers for launch
R-02	Stripe approval delays for a PK-registered entity	Medium	High	Apply Week 1; Safepay as fallback (approves faster)
R-03	Solo-dev velocity miss / burnout	Medium	High	20% buffer; scope-cut candidates per phase identified
R-04	Low early traffic / discovery	High	Medium	SEO from day 1; content marketing (blog, travel guides); targeted paid ads at launch
R-05	Safety incident during a Women-First trip	Low	Very High	Guide verification, SOS infrastructure, incident protocol, future insurance product
R-06	Negative early reviews damaging trust	Medium	High	Careful v1 guide selection, small-batch launch, launch promo refund guarantee
R-07	Competitor (Mad Hatters) launches digital booking during our build	Low	Medium	Track releases; differentiate on multi-tier + mobile + concierge
R-08	Flutter dev not hired or delayed	Medium	Medium	API-first design lets web launch independent of mobile
R-09	FX / currency conversion losses on refunds	Low	Low	Store transaction FX rate; use gateway-native refund flow
R-10	Aiman's inputs delayed	Medium	Medium	Draft docs with placeholders; escalate blockers at weekly check-in
R-11	Brand ambition (nationwide) vs. v1 reality (Lahore only) creates expectation mismatch	Low	Medium	Clear "coming soon" markers for other regions; blog about future expansion

17. High-Level Roadmap

Phase	Weeks	Theme	Milestone
Phase 1	1–4	Foundation	Browsable site on staging: auth + multi-tier catalog + admin CRUD
Phase 2	5–8	Booking Engine	First real bookable + payable package on staging
Phase 3	9–12	Safety, Mobile API, Launch	Production launch (Lahore)
Post-launch	13–16	Flutter mobile ships + marketing push	Mobile app available
v2	Month 4–6	Islamabad + GB expansion, self-serve guide portal, Urdu, universal safety	Expansion
v3	Month 7–12	Nationwide (Karachi, Peshawar, Quetta, Multan), multi-day packages, group bookings	Full brand realisation

18. Glossary

Term	Definition
DeP	Daastaan-e-Pakistan
Daastaan	Urdu for *tale, story, narrative*
Tier / Category	A grouping of packages that share a theme and feature set (e.g. Women-First, Cultural Heritage)
BRD	Business Requirements Document
FRD	Functional Requirements Document
SRS	Software Requirements Specification
WBS	Work Breakdown Structure
RBAC	Role-Based Access Control
SOS	Emergency alert action initiated by customer
AOV	Average Order Value
NPS	Net Promoter Score
PII	Personally Identifiable Information
CNIC	Computerised National Identity Card (Pakistan)
PITR	Point-In-Time Recovery (database backup)
MVP	Minimum Viable Product

19. Appendix A — Open Items

Awaiting resolution before BRD v1.0 (Approved):

1. Final tier naming + launch tier list (depends on Aiman's catalog)
2. Lahore activity catalog with per-package details
3. Guide roster for launch (names, photos, CNIC, bios, specialities, WhatsApp)
4. Guide flat-fee amount + payout cadence
5. Refund & cancellation policy wording
6. Final promo code strategy + referral amounts

7. Domain name registration (`daastaan-e-pakistan.com` / `daastaanepakistan.com` / `daastaan.pk`)
8. Logo + visual identity (designer engaged?)
9. Social media handles (register @daastaanepakistan immediately — brand squatting risk)
10. Legal entity for payments (PK company registration status)
11. Static vs CMS-managed decision for Vision/Values/About (speed vs flexibility — recommend static v1, CMS v2)
12. Confirmation of founder public identity (Aiman named vs. anonymous founder as in current About copy)

20. Appendix B — Change Log

Version	Date	Author	Summary
v0.1	2026-09-17	Ahmad Fawad, Flyxosoft	Initial internal draft. Women-first Lahore safety concept. `<PRODUCT_NAME>` placeholder throughout.
v0.2	2026-10-19	Ahmad Fawad, Flyxosoft	**Pivot to Daastaan-e-Pakistan.** Brand locked by client. Positioning widened to nationwide marketplace. Multi-tier catalog introduced. Women-first repositioned as flagship tier (not whole product). Approved Vision/Mission/About copy incorporated from client. Personas expanded (overseas Pakistani persona added). Package Tier Framework (§9) added. Updated competitor matrix. New risk R-11 (brand ambition vs v1 reality). Document reformatted as professional Flyxosoft deliverable with document control and confidentiality notice.

End of BRD v0.2 Draft
